

January 10, 2017

As far as Gold goes, I wouldn't deal with anyone else in the area....they are a great family owned commercial real estate company.....very responsive...very professional....and, they definitely look out for their clients.

This purchase was my first commercial purchase as well and I can tell you....the next time I "walk through the Fire" I will be using Mitch and his team. Every other broker I talked to during my search was very arms-length. Mitch was very patient with me (there's a lot to learn in commercial vs personal.....i.e. Nothing happens as quickly as you might think) and walked me through the process.

I could go on for hours....
